SUPPLEMENT TO
REPORT NO.

1. Since 8 July the Communists in Paoan (113-56, 22-32) have conducted a general census and made raids on local residents. On finding anyone who has taken temporary lodging with a local resident, he is placed under arrest in the local regimental headquarters, kept incommunicado, and not allowed bail. They have made it known that from now on residents who give only temporary accommodation to friends and relatives are not reprehensible. They are allowed to provide accommodation for only one week. Those who wish to stay more than a week have to give reasons and obtain permission from WU Yu-cheng (吳玉成), considered the highest authority in Paoan, before they are allowed to do so. All members of the household will be held responsible for them.
2. The Central and South China Bureau has asked all northerners in local garrison forces to control the thoughts of the local populace and to indoctrinate them within three months. The Communists are apparently losing confidence in the local Communist sympathizers of pre-occupation standing. Businessmen not of Paoan origin or any who do business in Hong Kong and Kowloon and young men of the intellectual class who have not participated recently in political work for the Communists are subject to arrest. As a result, many persons who are in Hong Kong and Kowloon on business dare not return to their homes in Paoan. Many people have been placed under detention during raids on the Yen'k'ou (鹽口) Road area outside Shat'ouchia (沙頭角), Nant'ou (113-56, 22-31) and Tshsinchieh (大新街).
3. On 12 August the Military Control Commission (MCC) of the area around Shayu-yung (114-23, 22-37), Shench'uan (114-08, 22-32) and Paoan (113-52, 22-31) called a meeting to deal with the question of the maintenance of peace, since many troops had departed for the North. The meeting was held at the Shench'uan Middle School and attended by magistrates, heads of the various public safety sub-bureaus, company commanders of the government guards companies, heads of the anti-smuggling squads, etc. The meeting lasted from 11 a.m. to 6:25 p.m. and was presided over by CHU Feng (朱峰, or 朱), Chairman of the MCC. The following resolutions were made:
 - a. To make close check on civilian firearms and force defected elements to surrender hidden arms.

14. On 17 August CHI Feng arrived in Kant'ou from Shen'chuan by special train. After spending about 25 minutes with the Paoan Magistrate, he immediately called an informal meeting of all department chiefs and secretaries of the Hsien Government. The following points were discussed:
 - a. The Korean War is of the utmost importance. If necessary we can provide armed assistance at any time.
 - b. Both Tibet and Indochina should be liberated, but the time has not yet come. Even General CHI Te could not give the exact date when these two places will be liberated.
 - c. As regards our own territory, we would not hesitate for one moment to fight the Americans when the invasion on Formosa was launched.
 - d. When asked what part Russia would play in the invasion of Formosa CHI Feng gave an example - "When a family is robbed, it is not necessary for the head of the family to catch the thief".
 - e. Hong Kong represents a "leakage" from our country. It should first be placed under an economic blockade. Once the "precious pearl in the crown of the King" was lost, the British would give up rather than lose money. The success of the Wanshan campaign is a pointer towards Hong Kong. If the return from this operation is profitable, the liberation of Hong Kong is inevitable. Indochina is the rice-bowl of the world. We want it more urgently than we want Hong Kong, so we will leave the latter to rot.
15. CHI Feng added that these comments were his own personal ones and might be changed if he received different instructions.
